The first part of the paper discusses the importance of the research and the objectives of the study. It then presents a literature review of the existing research on the topic. The second part of the paper describes the methodology used in the study, including the data collection and analysis techniques. The third part of the paper presents the results of the study, and the fourth part discusses the conclusions and implications of the findings.

The results of the study show that there is a significant positive relationship between the variables studied. This finding is consistent with the previous research in the field. The study also found that the relationship between the variables is stronger in certain contexts than in others. These findings have important implications for the theory and practice of the field. The study suggests that further research is needed to explore the underlying mechanisms of the relationship between the variables.

In conclusion, the study provides valuable insights into the relationship between the variables studied. The findings suggest that the relationship is complex and context-specific. The study also highlights the need for further research to better understand the underlying mechanisms of the relationship. The results of the study have important implications for the theory and practice of the field.

The Shield

Take a glimpse into our world...

The cars, the fashion, the spirit. We won't forget the dances, the friends, the times of grief, and most of all the smiles we shared because after all this is us...then.

We will not remember days

Will these pictures be enough to remind us of all the days that we've spent in this place? As time press on we are forced to keep up with the endless struggle that is high school. Every year the one step closer to their future and work toward a point in their lives where so many things are will always be an array of different faces and personalities, but regardless of how our school will always be moments that can only exist within the walls of Northridge.

Another birthday past and still, which in the real
Time gives you by the way, I think you were to go
So make the best of this and don't ask why
It's not a question just a lesson learned in time

It's something unforgettable
But in the end is right
I hope you had the time of your life

Take the photographs and old frames in your hand
Hang it on the wall in your heart and good time
Told us of our lives and don't die on trial
For what it was worth it was worth all the while

It's something unforgettable
But in the end is right
I hope you had the time of your life.

SENIORS

Tennis is often looked at as an individual sport, but each player is only a small part of the whole. Each player had their part of a greater competition this year. This season the girls' tennis team had to overcome great adversity, but in the end it all paid off. The team was very energetic and strong, and a good story to tell on their long hard rides home, but the team soon realized when it was time to get down to business.

ALL THE HARD WORK MAKES GRADUATION THAT
MUCH MORE SATISFYING. THROUGH ALL OF THIS
WE ATTEMPT TO LEAVE BEHIND OUR OWN
LEGACY AND SET A GOOD EXAMPLE FOR ALL
THE OTHER CLASSES TO FOLLOW.

BUT, "THIS IS NOT THE END.
IT IS NOT EVEN THE
BEGINNING OF THE END.
BUT IT IS, PERHAPS,
THE END OF THE BEGINNING."

car stories

I was coming up to the Tennis Parking lot stop sign but there was no one coming anyway so I thought I'd pull a cool power slide through that 90 degree right turn. So I went through the intersection at about 45 mph. I began to go sideways but instead of sliding around the turn I slid through the grass on the other side of the road and right through the fence. The fence post bent and got stuck under my car so I had to drive forward to get it out. -Jason Young

OUR EXPERIENCE IS OLD
ENOUGH TO KNOW THAT
DESTINY IS NOT A PROMISE BUT
A QUEST-AN EXODUS TOWARDS
WORLD TRUTH ABOUT
OURSELVES AND EVERYTHING
WE TOUCH.

WHO ARE WE? WE ARE THE ACHIEVERS, THE DREAMERS,
INVENTORS AND WALL-BREAKERS, THE MOVERS, THE
SHAKERS, AND SHIFTERS. WE ARE UNIQUE. EVEN OUR
MUSIC HAS COLOR. WE DON'T JUST TALK- WE RAP. WE
AREN'T JUST SMART-WE'VE GOT GAME.

CAN THESE PICTURES CAPTURE

ENOUGH MEMORIES TO LAST? OR WILL WE NEED TO
REMEMBER? THESE MEMORIES ARE TOO GOOD TO
FADE. MAYBE BLURRED AT TIMES- BUT WHENEVER
THAT SMELL COMES OR SONG PLAYS, A FLICKER
OF YOU WILL APPEAR.

WE CANNOT FORGET

THESE TIMES OR EACH OTHER.

I'LL SEE YOU AGAIN, THERE IS
NO GOODBYE.. RIGHT HERE RIGHT
NOW, REMINDING EVERYONE TO
PERSERVERE, AND LIVE DEEPLY

From the day that you were born, we knew that we had received a very exceptional gift when you were placed in our arms. Each and every day since then you have only strengthened our beliefs as to the truly incredible person that you really are. You have emerged into a very beautiful, intelligent, and caring person that any parent would be so very proud of. We now have come to that very difficult point in your life where we as parents have to let go. This has to be one of the hardest things we will probably ever have to do, but we realize that you need to be able to spread your wings and start a new phase of your life without us to guide you. We can only hope that we have given you the foundation in which you can survive in this great, sometimes turbulent, world on your own. We know that you WILL succeed in anything you choose to do. We love you so very, very much.

Looking at the background, we have walked our lives. Shared moments of happiness, sorrow, tears, and love.

You are the one to take and give what is from God, and make people do. For all day tomorrow, for you the more of a dream, you are. I'm not the afraid to know, look for and explore the adventure that life has to offer. We are thankful, blessed, and proud God for you, our daughter.

Alyssa,

Even at an early age, you had such a sense of adventure -- from piloting fishing boats in Alaska to building a house in Puerto Rico, to teaching children in a remote village in Africa to rock climbing in Kentucky. You always see the good, always setting goals to be the best that you could be. We are very proud of you!

Love,

There are many duties we owe to society, and we must be prepared to perform them. We must be ready to sacrifice and to give up our own interests for the good of the community. We must be ready to stand up for our principles and to defend our rights. We must be ready to work hard and to strive for excellence. We must be ready to help others and to be kind and generous. We must be ready to accept responsibility and to be accountable for our actions. We must be ready to face challenges and to overcome adversity. We must be ready to learn and to grow. We must be ready to live our lives to the fullest and to make a difference in the world.

We have now shown that
 $\Delta_{\text{max}}(x) \leq \Delta_{\text{max}}(y)$.

The vision is based on the principles of partnership, shared decision-making, and a focus on the individual's needs and wishes. The vision is set out in the following table:

There is a growing awareness of the need to develop strategies to meet the needs of the ageing population. The Department of Health (2000) has identified the need to develop a 'new paradigm' of care for the ageing population. This paradigm is based on the concept of 'active ageing', which is defined as 'the process of optimising the opportunities for health, participation and security in old age' (Department of Health 2000, p. 1). The Department of Health (2000) has identified three key areas of focus for the new paradigm: (1) health, (2) participation and (3) security.

The Department of Health (2000) has identified a number of key factors that influence the process of active ageing. These factors are: (1) health, (2) participation and (3) security.
